# Dance Floor Package with Subfloor

Printable Installation Instructions

When installing your dance floor package, please follow these simple steps:

- First you will want to clean your main sub floor so that it is free of all dust, dirt, and debris.
- Loose lay your rolls in the room as you would like them to look after a complete installation. Let the rolls relax for up to 24-48 hours to ensure proper installation of your new flooring.
- Begin by installing the subfloor tiles by interlocking them together to form the space upon which your Marley dance floor will go.
- Install shiny side down, matte side up. The dance surface (top) is textured slightly, called calendaring which looks like tiny goosebumps. If your roll is reversible (2 color options) you can install with either side facing up.
- When laying the vinyl dance floor roll on top of the foam tile subfloor, you should have excess roll material surrounding the tiles. This 'perimeter' is to be taped down to your main floor using our Mat Tape provided, creating a 'ramp' or 'tapered' installation. You can also trim the dance roll to your size preference if you prefer to not have a taper.
- Please note: if you are installing on top of carpet you may need to cut your dance rolls to fit just inside the perimeter of the subfloor tiles and tape the rolls to the tiles.
- For installations with multiple rolls, you will need to use our Mat Tape to tape together the seams where the rolls touch, ensuring a flat transition where the rolls meet.

**Please see the following images for a visual representation
of each package option:**

5.25' x 10' Package

Rolls Cover: 5.25' x 10'

Tiles Cover: 3'10" x 9'7"

Rolls
- One roll cut at 10'
- Number of Rolls: 1

Tiles
- Tiles Layout: 2x5
- Number of Tiles: 10

**Rolls Cover: 10.5' x 10'**

Tiles Cover: 9'7" x 9'7"

10.5' x 10' Package

Rolls
- Two rolls cut at 10'
- Number of Rolls: 2

Tiles
- Tiles Layout: 5x5
- Number of Tiles: 25

Rolls Cover: 15.75' x 10'

Tiles Cover: 13'5" x 9'7"

15.75' x 10' Package

Rolls
- Three rolls cut at 10'
- Number of Rolls: 3

Tiles
- Tiles Layout: 7x5
- Number of Tiles: 35

Rolls Cover: 15.75' x 15'

Tiles Cover: 13'5" x 13'5"

15.75' x 15' Package

Rolls
- Three rolls cut at 15'
- Number of Rolls: 3

Tiles
- Tiles Layout: 7x7
- Number of Tiles: 49

![IncStores]

20' x 10.5' Package
Rolls Cover: 20' x 10.5'

Tiles Cover: 19'3" x 9'7"

Rolls
- Two rolls cut at 20'
- Number of Rolls: 2

Tiles
- Tiles Layout: 10x5
- Number of Tiles: 50

Rolls Cover: 21' x 20'

Tiles Cover: 19'3" x 19'3"

21' x 20' Package

Rolls
- Four rolls cut at 20'
- Number of Rolls: 4
